DLBF DRAIN LINE BIOFOAM

For use in floor drains, soda fountain drains, beer tap drains, ice cream dipper well drains, ice machine drains, bar sink drains, soda holster drains and other drains. May be sprayed in cracks and crevices underneath counters and equipment where FOG builds up. This foaming *Drain Line Formula* has a fresh scent and is used to more evenly distribute microbes. May be used in conjunction with an IGR. *Drain Line BioFoam* is intended for use with the *Oozi Foamer*.

Application Instructions:

When using with the *Oozi Foamer*, mix 4 oz of mixture per gallon of water. When using with other foaming units, mix with 6-8 oz per gallon of water. Spray floor drains until the walls of the drain are completely covered. For tap and fountain type drains spray approximately 8 oz. Expansion rates depend on water pH level and temperature. Follow manufacturer's instructions for foaming unit use. DO NOT spray on food preparation or food service counters. Use all product in foaming unit at time of service; do not store. Repeat monthly.

Storage:

Store *Drain Line BioFoam* at ambient temperature; do not allow to freeze.

Product Information:

Environmentally friendly
Does not cause pass-through
Gives maximum foam stability
Contains no corrosive or caustic chemicals

No free enzymes
Safe for plumbing lines and septic systems
Surfactant blend from natural plant derived materials
Multiple strains of naturally occurring bacteria

Precautions:

Do not ingest or inhale
Keep out of reach of children
Avoid contact with open wounds
People with autoimmune deficiencies should avoid contact

Product is slippery, use caution
Gloves and eye protection recommended
Avoid contact with eyes, nose, or mouth
Wash hands with soap and water after handling

First Aid:

In case of contact with eyes: flush with water for 20 minutes; seek medical attention if irritation persists.

In case of contact with skin: flush with copious amounts of soap and water; remove contaminated clothing.

In case of inhalation: remove victim to fresh air if trouble breathing; if symptoms persist, seek medical attention immediately.

In case of ingestion: drink 1-2 glasses of water to dilute; do NOT induce vomiting unless directed by physician; seek medical attention immediately.
