## DRAIN RELIEF® – Pill

**Residential Use:** For use in residential sink and shower drains, hotel bathroom sink and shower drains, hospital patient room sink and shower drains, nursing home sink and shower drains, and residential gray water systems.

**Commercial Use:** For use in combination with the *MicroDrip Injection System* in commercial facilities, where foul odors in the indoor interceptor and sink drain line buildup are both problematic.

*Drain Relief* pill is a timed-release product.

### Application Instructions:

Sink without a garbage disposal Mash 1 *Drain Relief* pill through the drain strainer. If strainer is missing mash pill before putting it down the drain. Run cold water down drain until all remnants are no longer visible. Repeat monthly.  
Sink with a garbage disposal – Place 1 *Drain Relief* pill in the garbage disposal. Turn on the garbage disposal and run cold water down drain for approximately 5 seconds. Repeat monthly.

For residential gray water systems – Use 2 *Drain Relief* pills per 1000 gallon tank. Drop into tank; repeat monthly.

### Storage:

Store at ambient temperature; do not allow to freeze.

### Product Information:

Environmentally friendly  
Safe for plumbing lines and septic systems  
Contains no corrosive or caustic chemicals  
No free enzymes or FOG emulsifiers

Non-flammable  
Does not cause pass-through  
Multiple strains of naturally occurring bacteria

### Precautions:

Do not ingest
